

Welcome to BD Multicolor Panel Design & FlowJo™ Event

Turku Bioscience, Cell Imaging Core, on February 14th, 2023, at 10:00-12:00
Biocity, 5th floor, room: BIO 5017a

Seminars

Improve Your Data Quality

- New fluorochromes for flow cytometry
- Multicolor panel design principles, also for spectral flow cytometry

Get the Most Out of Your Data

- Learn how to implement dimensionality reduction and clustering in your flow analysis
- Learn how to use FlowJo plugins

After the seminars

Individual sessions of panel design and data analysis

Possibility to have individual consultation on panel design and/or data analysis with BD Application Specialist & BD FlowJo Expert.

[Check BD's new laser-specific fluorochromes](#)

[Learn more about FlowJo analysis software](#)

[Explore BD Biosciences' reagent portfolio](#)

Please register in advance

- Register for the seminar
- Register for an individual session

By emailing elina.tervo@bd.com

Coffee & snack provided for registered participants!
